Under Belgian ownership established in China a decade ago, Dynamic Sports ZhangJiaGang Co.Ltd. develops, manufactures and delivers to your specifications. Specialized in custom made apparel for individualized and team wear concepts we supply the widest range of high quality printed products for private labels. Over the last couple of years we have also taken a fashion turn and are including high-end printed active, swim and resort wear to our production portfolio.

All our products are done in-house, meaning from design assistance & pattern work to printing, pressing, sewing, and packing.

- Dynamic Sports produces on average **20 000 pcs/month**, working only for **private labels**.
- **Minimum Order Quantity: 50 pieces** per style.
Repeat orders - no minimum.
- **Standard lead time: 4 weeks** maximum after sample approval.
- **Roland** printers - Italian inks and **MONTI** flatbed pressing machines
= Razor **sharp prints** are guaranteed!
- Belgian owned and managed = **EU quality standards and smooth communication**
- **Asian** and **Italian** function **fabrics** and **accessories**

WE SPEAK YOUR LANGUAGE

Say goodbye to set up fees, screen proof costs and hidden charges. Customize your own design with unlimited logos, images, text and colors. We quote you just one price. Furthermore we can adjust all logos, texts and placement prints according to the clothing size.

Our design team will make your artworks come to life while our expert pattern makers are ready to work with you on adjusting or developing your new fit. Skillful and professional staff at our sewing workshop are trained to the highest standard. An extensive knowledge of the fabrics and accessories we craft into your garments is monitored at every step of the manufacturing process thanks to our Belgian management who is permanently present at the factory site. After our final inspection your products are carefully boxed and packaged to arrive fully insured at your door in perfect condition.

PRODUCTS

We are proud to manufacture for well known brands (up to UEFA level) but we also know competition is tough. We consider business and technical information property of our customers and therefore confidential.

Our customers value deeply our discretion and protection of their label which is why we don't show much branded visual material, but mainly our own Dynamic Showcase samples.

All these DYNAMIC styles are available for production under private label. Contact us for further details.

WHAT IS SUBLIMATION PRINTING?

PRINTING PROCESS

Unlike as with many standard bulk sportswear manufacturers with us you can completely customize your own design with logo's, images and text using as many colors as you like. Productions start at low volumes and all items can be easily re-ordered.

You provide us your artwork in JPG or PDF. After your artwork has been checked by our designers, it will be printed on special transfer paper. This printed sheet gets transferred onto a fabric under high heat and pressure. The fabrics we use are always 100% polyester.

With sublimation your print on the fabric will never fade. This because the colors are not fixed on the surface but impregnated into the fibers.

Roland printers – FJ and FP series

The Roland printing series allow creating brilliant graphics and have a rigid construction that lays down ink smoothly on paper. All colors (along the CMYK formula) are vibrant. Also fluorescent and deep black can be obtained and give perfect results after heat transfer. Prints are easily transferred to polyester fabric and preserve a natural drape and texture.

Our inks - Manoukian

Water based Italian sublimatic inks: these are long lasting inks assuring good image quality, wash & color fastness and printability.

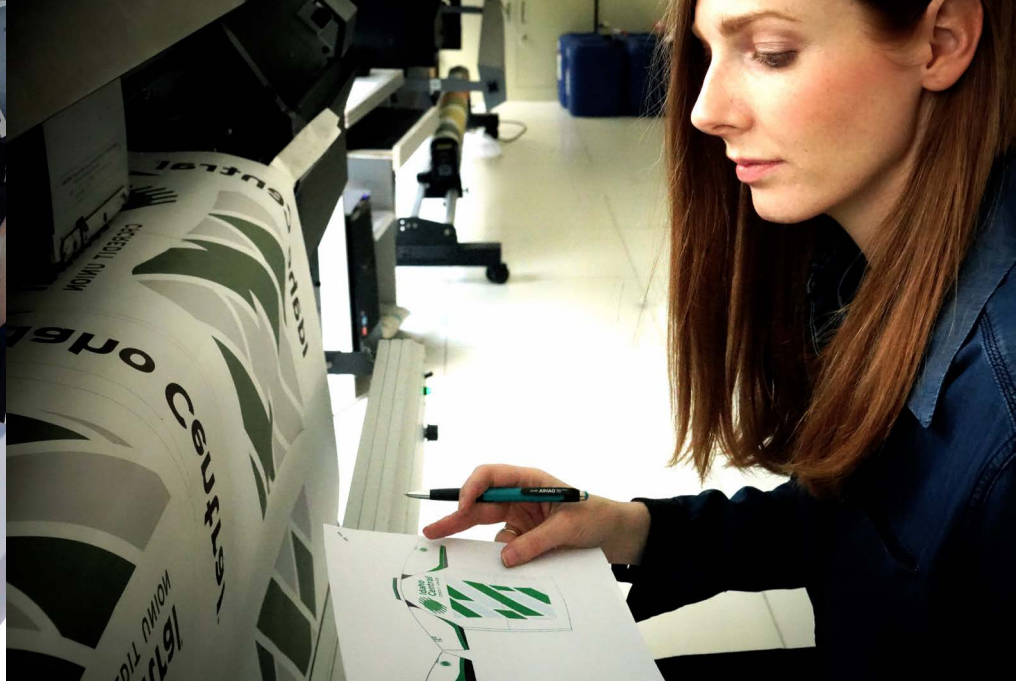

Our high-press machinery

We work with Italian MONTI flatbed press machinery, which consists out of double hydraulic pump pressure systems and is designed for a unique output, high speed production and minimizes risks of shadows (ghosting). Flatbed pressing is an advantage as nowadays many manufacturers switch to calendar pressing to save on costs but the sharpest prints can only be obtained by longer ink penetration = longer contact between fabric and pressure panel (40 - 45 seconds). We also pre-press all fabrics to minimize ghosting.

ADVANTAGES IN DIGITAL PRINTING/ SUBLIMATION:

- Unlimited colors per design
- Repeat orders start from 1 piece
- No fading colors after washing, no cracking in fabrics
- High viz/fluorescent colors possible as well as deep black
- Logos and artworks are in proportion for each size

HOW TO ORDER?

DESIGN CONCEPT

The first step is to bring over your concept as accurate as possible to our designers.

ARTWORK TEMPLATE

- Send us your own artwork template or ask for our blank template examples.

Preferred file types: Adobe Illustrator AI files or High resolution (minimum 300 dpi) PDF files

- Attach logo's (in vector format) and mention logo size and positioning

COLORS

- Choose your colors from our digital DS color palette which are consistently reproduced on the variety of fabrics we offer. If colors are outside our standard color palette you can send us PMS (Pantone Matching System) numbers for color matching. Send your complete file with contact details to: natalia@dynamicsports.cn or for more information please call 0086 512-5842 8221

FIT & FABRICS

PATTERNS AND SIZING

We offer standard pattern forms in European size fits designed by sport athletes to ensure top performance (you can ask for our size charts and fitting samples).

However, if you want to use your own styles, our pattern department will develop all sizes and fitting samples at an additional fee. We do need a complete size specification, or digital pattern files. After your confirmation on all sizes we will keep your styles in our 'pattern library' (we only develop patterns based on a certain volume guarantee).

We will help you choose from all our different finishing possibilities, stitching options etc. Let us also know your packing and labeling requirements!

GET YOUR FABRICS RIGHT

A great product requires great raw - materials.

Both at entry level as at top performance we know your brand needs to offer the best in each price range. Thanks to our expertise and close relationships with domestic

Chinese, Asian and Italian suppliers, we are able to give you different suggestions in raw materials along the development stage.

SAMPLE CONFIRMATION

Before starting production we always send a sample and/or an A3 artwork swatch for your approval.

It is important to double check and confirm colors and logo positions. Furthermore, fitting your garment is of great value to check on pattern form, size and finishing before production starts.

Your sample and swatches are free of charge when an order follows (excl. courier cost). We recommend you have a courier account number, such as DHL, UPS or FedEx. This way we can easily send samples and save time. After confirmation of the artwork and sample approval we are ready to start production.

We ask for a deposit of 50%. Balance before shipment by TT payment.

PRODUCTION ORDER

Our team will assist you with the completion of your production order sheet. All order details will be put into our provided order form where you can also mention the size breakdown and volumes. After receipt of your deposit payment we will get started and produce the custom clothing you've always wanted!

DELIVERY & SHIPPING

Dynamic Sports provides one of the fastest turnaround times in the industry.

Our delivery period is 3-4 weeks after approval of the artwork/sample for order volumes below 1000 pieces in the low season (November - April, excl. Chinese New Year).

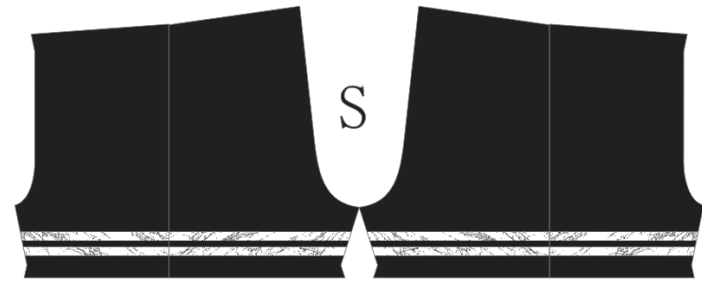

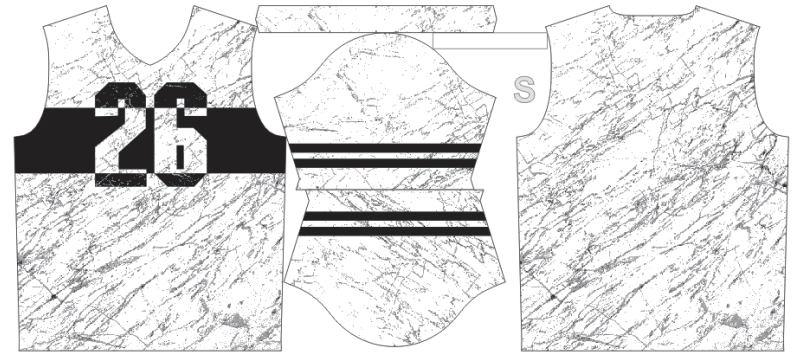

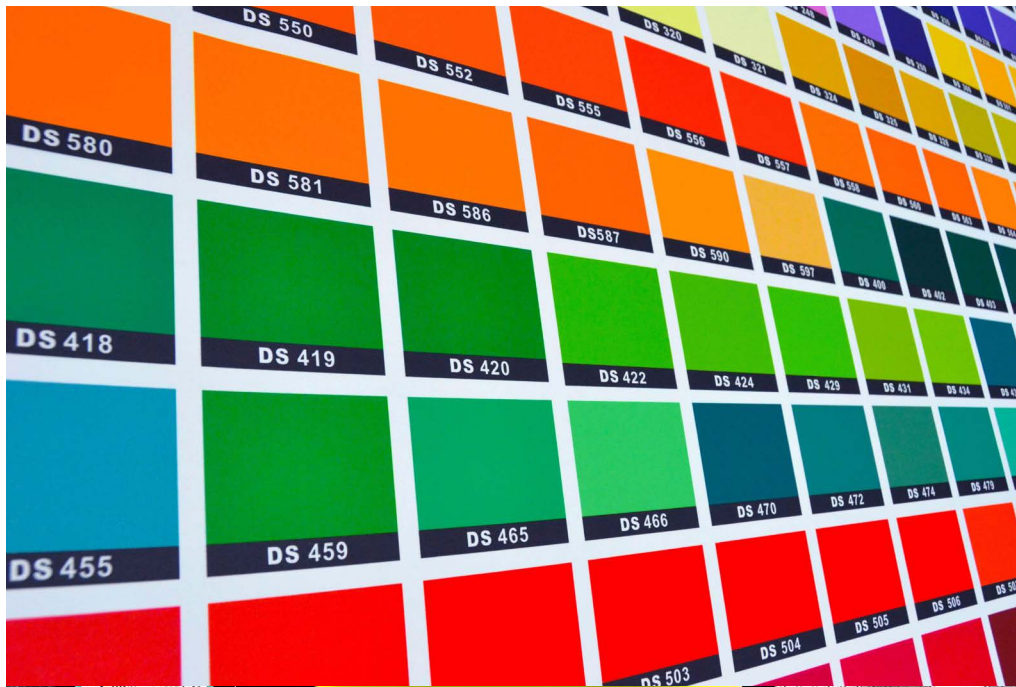

During high season our lead time is 4-6 weeks.

Shipments are mostly done by air (Shanghai PVG airport), per courier for extra fast deliveries or by sea for larger bulk volumes.

Mostly, our orders are processed and shipped FOB Shanghai.

Shipping, duties, taxes and custom fee's are the responsibility of the customer.

(Delivery, payment and shipping terms may change for volume > 1000 pieces/order)
